WORK EXPERIENCE

African Leadership College (ALC), Mauritius — User Interface/Experience Design
Intern for the ALC Information System
May 2017 - August 2017, September 2018 - December 2018

- Performed more than 100 system integration tests to ensure proper
  functioning of the ALC student portals with the Salesforce backend
- Prototyped more than 100 pages for the post admission and student
  information system portals which enabled us to beat the system launch
  deadline by 2 weeks
- Conducted more than 100 user tests on prototypes to aid the design and
  development of the ALC student information system which influenced the
  quick adoption of the system by the students on launch

Thomson Reuters (TR), Nairobi, Kenya — Account Management and Sales Intern
September 2016 - December 2016, September 2017 - December 2017

- Performed user swaps and account management for more than 70 clients in
  the East Africa and Indian Ocean Islands region that facilitated the retention of
  the 70 clients and subscription to 5 more TR Eikon systems by these clients
- Conducted research and analysis of 50 potential clients with the aim of
  identifying their data needs that could be satisfied with TR software solutions
- Thereon, accompanied the sales team to more than 20 potential client
  locations and helped in securing 2 clients for the company

CHARITABLE ACTIVITIES

Strathmore University Community Outreach Program(COP)
- Participated in building classrooms for 5 schools and donating food, books
  and other basic amenities to 22 children homes and hospitals in Kenya

AWARDS & ACHIEVEMENTS

- **Winning Team, Mauritius Commercial Bank InnovApp Challenge 2018** - As
  the team leader in a team of three named SmartShopper, I facilitated my team
  to emerge winners by aiding the design, development and pitching of our
  supermarket self-checkout app idea to the management and investors of
  MCB.
